\*With the transition to the South Carolina Enterprise Information System (SCEIS), EFT payments are issued the last Friday in the payment cycle, while checks are mailed out the last Monday of the payment cycle. This will result in providers receiving checks several business days after the checks are mailed out.

It's strongly encouraged that providers keep up-to-date EFT information on file with SCDHHS.

To process EFT updates, please return a completed [EFT form](#) along with verification of your electronic deposit information on your financial institution's letterhead to:
