For ADHCs, this expectation means that individuals have the opportunity to receive services outside of the four walls of the facility. 2.3. *Individuals have the ability to seek and gain competitive employment in the community.*

2.3.1. How does the program aid individuals who wish to pursue competitive employment in the community.

The expectation is not that the ADHC will find employment for the individuals nor train an individual to be employed, but if an individual is indicating a desire to be employed, the program should communicate that information to the individual’s case manager.

2.4. *Individuals have full access to the community and are allowed to come and go from the facility, as they are able, unless the individual’s safety would be jeopardized. Reasons to restrict movement are documented in the individual’s record. Attempts to mitigate safety issues prior to revoking an individual’s right to freedom of movement are documented.*

This expectation is more directed at day programs rather than ADHCs. However, ADHCs should evaluate whether their program offers individuals some level of access to their community and strive to integrate as much as possible.
