

January 24, 2018

Susan Kreh Beck, Ed.S., L.P.E.S., N.C.S.P.
Associate State Director – Policy
South Carolina Department of Disabilities and Special Needs
3440 Harden Street Extension
Columbia, SC 29203

Ms. Beck,

The South Carolina Department of Health and Human Services (SCDHHS) and its partner-provider, the South Carolina Department of Disabilities and Special Needs (SCDDSN), have been working to meet the requirements of the Home and Community-Based Services (HCBS) regulation [[42 CFR 441.301 \(c\)\(4-5\)](#)]. A major part of that effort is determining the compliance level of non-residential and residential settings contracted with SCDDSN to provide waiver services. SCDHHS contracted with Public Consulting Group, Inc. (PCG) to assess the non-residential and residential settings where waiver services are provided as part of the compliance efforts for the HCBS Rule.

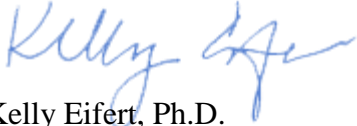

Included in this letter are the final global results of the non-residential and residential settings assessments, completed in October of 2017. The results are provided by setting type with all non-residential setting results combined. The results show compliance percentages for each assessed area based upon site visit observations, staff interviews, and waiver participant interviews.

Based on previous conversations with you, I understand that technical assistance will be available through your agency (SCDDSN) for providers to address changes in their settings to demonstrate compliance with the HCBS Rule. We will have additional resources available on the [HCBS website](#). We would encourage collaboration among providers to share their own success stories and offer assistance amongst themselves.

As this is the final global analysis, SCDHHS looks forward to SCDDSN's compliance action plan (CAP) detailing how they will oversee their providers addressing areas of non-compliance. The action plan must include a timeframe for its providers to be compliant; a review process for individual provider CAPs, including the approval process and communication; the process for monitoring how changes will be made at the provider and setting level; and the process for monitoring ongoing compliance with the new standards.

Please let me know if you have any questions.

Sincerely,

Kelly Eifert, Ph.D.
Project Manager, Long Term Care and Behavioral Health
SC Dept. of Health and Human Services

cc: Joshua Baker, Interim Director, SCDHHS
Peter Liggett, Ph.D., Deputy Director, SCDHHS
Patrick Maley, Interim State Director, SCDDSN
Scott Tanner, Director of Operations & Community Options

Global Analysis – PCG Site Visits, completed October 2017

Non-Residential Results

Section	Assessment Statement	Percent compliant (based on “Yes” answers)
Community Integration	The location is free from a surrounding high wall, fence, closed gate, or locked gate	87.50%
	The setting is free from locked doors, gates, or other barriers which inhibit entry to or egress from the location	84.09%
	The setting is located among other private residences, businesses, and/or community resources	89.77%
	The setting is not on the grounds of, nor adjacent to, either a public institution or building where inpatient institutional treatment is provided (A public institution is an inpatient facility that is financed and operated by a county, state, municipality or other unit of government).	92.05%

Section	Assessment Statement	Percent compliant (based on “Yes” answers)
	This location is the only setting operated by the provider in the immediate area.	52.27%
	This location is the only setting of its type located in the immediate area	67.05%
	The setting is located separately from a sheltered workshop or other employment setting. (Co-location refers to being on the same grounds, within the same building of, or sharing common spaces)	45.45%
	Community resources outside of the setting are utilized to provide services to waiver participants	90.91%
	Waiver participants spend the majority of their daytime hours involved in activities of their choice that include opportunities to participate in the community per their interests and preferences.	90.91%
	In non-employment setting, the program provides waiver participants with opportunities for typical meaningful non-work activities in integrated community settings (i.e. volunteering in the community such as at an animal shelter)	57.95%
	If an employment setting, waiver participants have the opportunity to participate in determining his/her work schedule, break and lunch times, including leave (vacation/sick time) and receipt of medical benefits with his/her employer	47.73%
	Waiver participants have access to and control over their own money	78.41%
<i>WP</i>	<i>What do you like to do during the day here? Do you choose what you want to do while you are here?</i> Waiver participants spend the majority of their daytime hours involved in activities of their choice that include opportunities to participate in the community	82.95%
<i>WP</i>	<i>Do you go into the community from here? What do you do there?</i> The program provides waiver participants with opportunities for typical meaningful non-work activities in integrated community settings (i.e. volunteering in the community based on individual interests)	73.86%
<i>WP</i>	<i>Are you allowed to bring and keep your own money?</i> Waiver participants have access to and control over their own money.	78.41%
Choice of Setting	The waiver participant was provided options when choosing the setting, including non-disability specific settings	92.05%

Section	Assessment Statement	Percent compliant (based on "Yes" answers)
	The program offers employment options outside of employment services offered at the setting (i.e. the provider has options for waiver participants to obtain employment in the community)	78.41%
	Waiver participants have a choice to participate in individual and/or group employment opportunities and to work in integrated public settings. (i.e. the waiver participant can choose the type of work setting.)	82.95%
	The program provides services to individuals not receiving HCBS services (state funded services are acceptable)	87.50%
	Waiver participants and non-waiver participants are integrated within the setting.	89.77%
	The program provides waiver participants the ability to interact with non-waiver participants, excluding paid staff and/or volunteers	82.95%
<i>WP</i>	<i>Do you want to have a job? Do the staff help you find a job?</i> Waiver participants have a choice to participate in employment opportunities (individual and/or group) and work in integrated public settings.	76.14%
<i>Individual rights</i>	Waiver participants are informed of their rights	94.32%
	Rights information is posted in an area easily accessible to the waiver participant.	84.09%
	Waiver participants are informed of the process for filing grievances or complaints.	92.05%
	Waiver participants freely express complaints without fear of staff imposed consequences.	90.91%
	Waiver participant's health information is only discussed with those authorized by the waiver participant.	89.77%
	Health information is stored in a central, secure location which is only accessible to professional staff.	92.05%
	Waiver participant's schedules for PT, OT, medications, restricted diet, etc. are kept private.	90.91%
	Health related and personal care activities (ex: blood pressure readings, medication administration, personal hygiene, etc.), including discussions of health, are conducted in private locations	80.68%
	The setting provides a secure place for waiver participants to store personal belongings	75%

Section	Assessment Statement	Percent compliant (based on “Yes” answers)
	Waiver participants are allowed to use private mobile devices as appropriate AND allowed privacy to do so during personal time or emergencies	92.05%
	The setting prohibits the use of un-authorized restrictive interventions and restraints interventions such as seclusion, physical or mechanical restraints, chemical restraints, or locked doors.	85.23%
<i>WP</i>	<i>If you were unhappy here, who would you tell?</i> Waiver participants are informed of their rights.	89.77%
<i>WP</i>	<i>Are you able to make a complaint if you are not happy? How do you do this? Does someone help you?</i> Staff do not retaliate or impose consequences on waiver participants in response to complaints.	80.68%
<i>WP</i>	<i>Is there a telephone number you can call if you have a problem?</i> Waiver participants are informed of the process for filing grievances or complaints.	64.77%
Autonomy & Independence	Waiver participants are encouraged to choose their own personal activities and create their own activities schedule based on their individual interests and preferences	92.05%
	The program provides a variety of meaningful non-work activities that are responsive to the goals, interests, and needs of the waiver participants.	92.05%
	If work is completed or unavailable, the waiver participant is engaged in meaningful non-work activities that are responsive to the goals, interests, and needs of the waiver participant.	89.77%
	The program provides for large group activities as well as solitary activities.	95.45%
	The program provides for stimulating as well as calming activities	87.50%
	The program provides indoor and outdoor gathering spaces for the waiver participants	92.05%
	The program allows waiver participants the freedom to move about inside and outside of the setting.	90.91%
	Waiver participants may move about the setting freely.	88.64%
	Waiver participants are involved in activities and work with various people throughout the day.	80.68%

Section	Assessment Statement	Percent compliant (based on “Yes” answers)
WP	<i>If you want to do an activity that is not on the schedule, are you able to do so?</i> Waiver participants are encouraged to initiate and create activities of their choice/create schedule.	72.73%
WP	<i>If you want to do an activity by yourself instead of with a group, could you?</i> The program provides for large group activities as well as solitary activities.	69.32%
WP	<i>Do you have to stay in the same room all day?</i> Waiver participants are not restricted to the same room for the majority of or all of the day.	51.14%
WP	<i>Do you have to stay with the same people all day? Sit in the same seat?</i> Waiver participants are not assigned to be with the same group of people throughout the day.	40.91%
WP	<i>Are you able to go outside if you want to?</i> The program provides indoor and outdoor gathering spaces for the waiver participants.	67.05%
Choice of Services	Waiver participants and their representatives are offered and encouraged to participate in their planning meetings	93.18%
	Participants are offered the option of having a facilitator for service planning	81.82%
WP	<i>Who comes to your service planning meetings? Do you attend the meeting?</i> Waiver participants and their representatives are offered and encouraged to participate in their planning meetings.	76.14%
WP	<i>Do you get to choose who is invited?</i> Waiver participants communicated that they have the ability to select those invited to the planning meeting.	77.27%
WP	<i>Do you feel everyone listens to what you have to say during the meeting?</i> Waiver participants communicated that their input is reflected in the service plan.	78.41%
WP	<i>If you later wanted to change some of your services what would you do?</i> Waiver participants communicated that they are aware of how to request changes to their current services.	78.41%

Section	Assessment Statement	Percent compliant (based on "Yes" answers)
<i>Physical Accessibility</i>	The setting is physically accessible for waiver participants who have a physical disability (i.e. a ramp is in place if a resident uses a wheelchair)	94.32%
	The site is free from gates, or other barriers preventing waiver participants? entrance to and exit from all areas of the setting	92.05%
	Assistive devices (e.g. sight and hearing impairment devices) are available for waiver participants who require them to move or access the setting	89.77%
