Total Excluding OOS, North Gville, and SCDMH Hospitals		8,511		4,394,760

State-wide panel size was reduced from 10,000 to 8,511 based on feedback from proviso committee, and minimum and maximum adjustments.

Rural hospital target populations were allocated according to projected percent of total 2014 DSH accounted for statewide.

Non-rural hospitals target populations were calculated as projected DSH dollars at risk divided by 5000.

Indicates target population was raised to minimum of 50.

Indicates target population was capped at maximum of 750.

HOP Target Populations and Primary Care Safety Net Enhancement Payments**

	SC Rural	Target Pop by DSH Risk at \$5000 per person	Facility Need Index	Primary Care Safety Net Enhancement
Provider				
Cumulative PC Safety Net Enhancement does not equal \$5 million because the proviso directed \$600k to Welvista from this amount.				
Primary care enhancement is set at \$1060 per person in the target population allocated to hospitals with highest facility need indices.
