If you give a Ped a Problem

He will ask you what the AAP says about it...

Then she will ask you how to pay for it...

Then he will ask you how to screen for it...

Then she will ask you what to do when she finds a positive screen...
Then he will develop algorithms to make these things routine...

Then she will get bored and decide she wants to focus on 3-6 year olds visits...

Then they will want a list of resources for families of 3-6 year olds.

For QTIP Peds, the list will look like this:

<table>
<thead>
<tr>
<th>Resources for 3-6 year old visits:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Parenting</td>
</tr>
<tr>
<td>• Childcare and child friendly activities</td>
</tr>
<tr>
<td>• School readiness</td>
</tr>
</tbody>
</table>
