

**ADHD Visits
+ HPV Vaccines
It's Working!**

Children's Hospital Outpatient Center
QTIP Learning Collaborative
January 2015

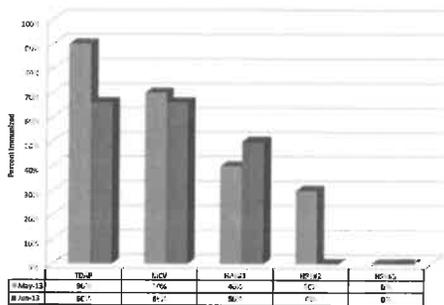

Getting Started

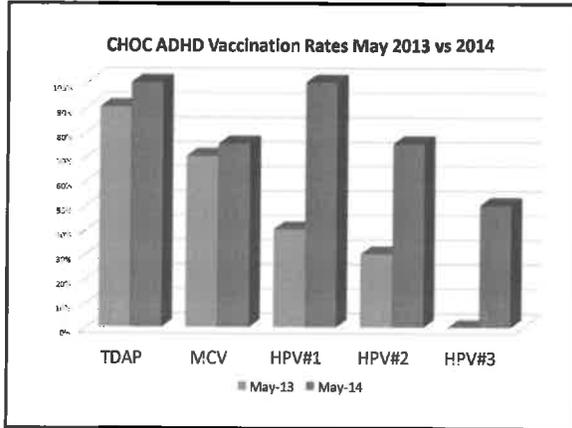

- Identify a subset of patients
- Determine our baseline

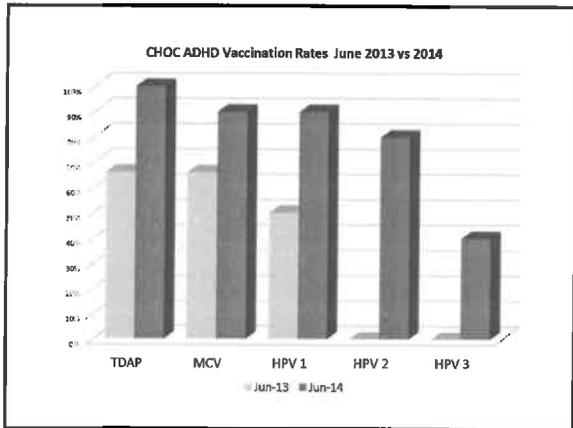

CHOC Adolescent ADHD Immunization Rates
May- June 2013

And then

- Create a process for identifying those who need HPV
- Address documentation and billing issues
- Create a useful prompt to make sure patient received the vaccine before discharge

Next Steps...

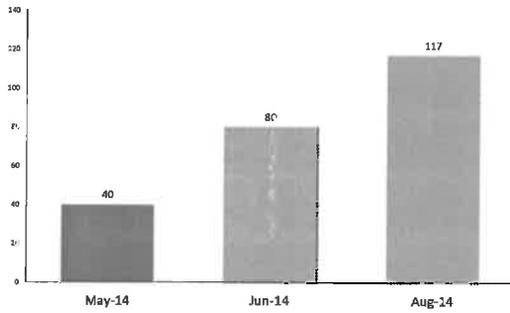

Cycles 12 to infinity...

Ways to expand process to other populations...

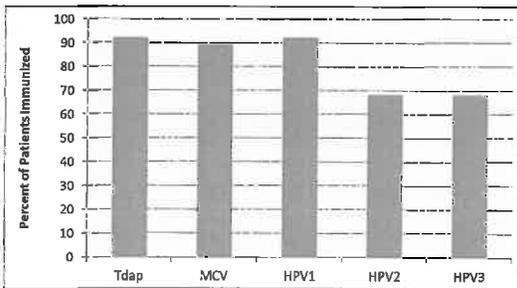

EXPAND

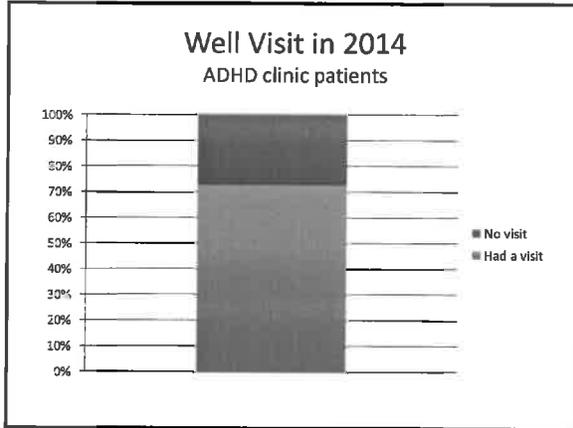

- To general clinics
- To all vaccines
- To ensuring well child visits

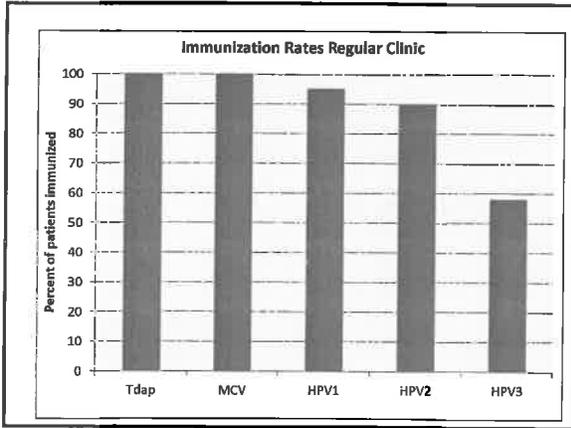

HPV Vaccines Given

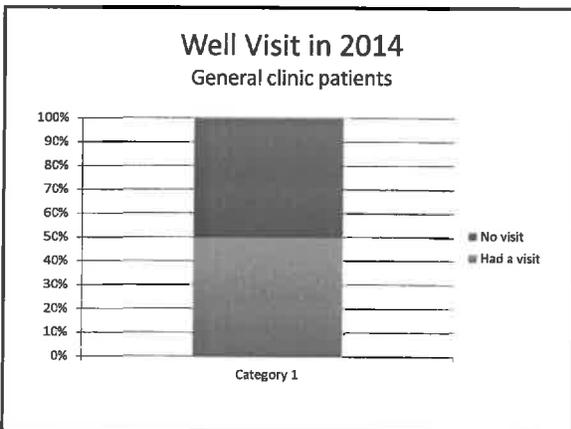

How are we doing in January 2015

Questions???

or LUNCH!
