<tbody>
<tr>
<td><strong>Medication Management for People with Asthma (MMA)</strong></td>
<td>The percentage of patients 5-64 years of age during the measurement year who were identified as having persistent asthma and were dispensed appropriate medications that they remained on during the treatment period. Two rates are reported: (1.) The percentage of patients who remained on an asthma controller medication for at least 50% of their treatment period. (2.) Remained on an asthma controller medication for at least 75% of their treatment period.</td>
</tr>
<tr>
<td><strong>Use of Appropriate Medication for People with Asthma (ASM)</strong></td>
<td>The percentage of patients 5-64 years of age during the measurement year who were identified as having persistent asthma and who were appropriately prescribed medication during the measurement year.</td>
</tr>

<tbody>
<tr>
<td><strong>Follow-Up Care for Children Prescribed ADHD Medication (ADD)</strong></td>
<td>The percentage of children newly prescribed attention-deficit/hyperactivity disorder (ADHD) medication who had at least three follow-up care visits within a 10-month period, one of which was within 30 days of when the first ADHD medication was dispensed. The reported rate, the Initiation Phase, is the percentage of members 6-12 years of age as of the IPSD with an ambulatory prescription dispensed for ADHD medication, who had one follow-up visit with practitioner with prescribing authority during the 30-day Initiation Phase.</td>
</tr>
</tbody>
</table>
Immunizations, screenings, and age-appropriate anticipatory guidance meet well visit coding requirements. Maximize visits by adding age-appropriate preventive (993XX) procedure code AND/OR diagnosis code listed within child's age brackets 12 mos. - 17 yrs.

**HEDIS® Scores**

Documentation should include:

- Physical activity and nutrition
- Age-appropriate anticipatory guidance (can be documented in the patient chart or at a HEDIS® well visit improving coding and reimbursement)
- Growth and development assessment
- Physical examination

This flowchart illustrates the components of a well-child visit. The flowchart includes code sets for various components and stages of childhood development.
